

Fast Track Cities Workshop Japan 2023

-Status and challenges of HIV mail-in / self-testing, and comparison with surrounding Asian countries-

The Fast-Track Cities committed to accelerating their urban HIV responses to achieve SDG 3.3 of ending the HIV by 2030. The initiative was established on 2014 by four core partners, The Joint United Nations Programme on HIV/AIDS (UNAIDS), International Association of Providers of AIDS Care (IAPAC), the United Nations Human Settlements Programme (UN-Habitat), and the City of Paris. This workshop aims to discuss the current status and challenges of HIV mailings and self-testing, share best and make necessary policy recommendations. We look forward to the active participation of everyone involved in a wide range of HIV-related activities.
